

Amigo mobile scaffold

CUSTERS

Aluminium Scaffolding

Service & Maintenance

Ground Support Equipment

Compact up to 6m working height

The friend for all your jobs!

The Amigo 'one-man' mobile scaffold can be erected quickly and safely by one single person. This small type mobile scaffold is easy to transport thanks to the smart trolley that can be built from the scaffolding parts. Due to the compact dimensions it fits in many vans.

Due to the sophisticated assembly hooks on the platforms, scaffolding material can be temporarily suspended in the scaffolding.
