Aluminium Scaffolding

Service & Maintenance

Ground Support Equipment

## Unique access system that offers more safety and comfort!

The Handy dormer scaffold offers the opportunity to extend your mobile scaffold towards a dormer.

Whereas our colleagues with their so called extension consoles are limited to 2 platforms we clearly offer more!

Other advantage is that immediately a guardrail is in place when mounting the Custers dormer frames.

These special dormer frames are mounted with swivel couplers to the mobile scaffold and are provided with soft cushioned support rolls.

The removable end-guard rail makes it possible to endlessly extend the platform length, using other sets of dormer scaffold alongside.

### Specifications

- Safe and quick
- Extendable up to 4 platforms
- Can endlessly be extended alongside the façade
- Fits on all common brands
- Made in The Netherlands
