

Aluminium Scaffolding

Service & Maintenance

Ground Support Equipment

Easily and quickly transport of your scaffolding materials!

This no-nonsense trailer offers excellent value for money: top-notch quality combined with maximum versatility. Get on the road efficiently with a rolling scaffold up to 12m working high!

All your materials are literally within reach during assembly and can be securely fastened with just a few straps. For a modest additional cost, the scaffold trailer can be upgraded with a waterproof, bonded plywood floor, ensuring durability and convenience.
